Hey Anita – looks like the Region is trying to crank out the CZARA document we commented on late last year. Did they share these revised documents with you all? In any case, my OGC water counterpart's note below suggests they are looking for a quick turnaround (this week). If you haven't been asked to review it, you can just send me any reactions.

Allison and All,

This document is also in very good shape. I focused on the new material, which strengthens the document further, and scanned the rest. Several comments and typo corrections are in the attached markup.
